### Thank you for your order!

Please note that your order is currently pending while inventory availability and applicable export compliance is being confirmed. You will receive an email when all necessary checks have been performed and your order begins processing. The lead time of the items on your order will commence from that time. Usually this period is extremely short (almost always less than a day), but it can take a few days if you've elected to pay via wire transfer or if your order is delayed due to export compliance verification. Please see below for other important details, including shipping information.

**This is not an invoice.**

An invoice with exact charges will be issued once your order has shipped.  
Shipping and final taxes (if applicable) will be calculated when a shipment method has been selected.

This order shall be governed by the terms and conditions described in the applicable sales agreement between you and Arrow. In the event that there is no such agreement, you agree that Arrow Electronics, Inc.'s Terms and Conditions of Sale shall apply to the sale/licensing of any and all products and/or services.

**Shipping**

Tracking numbers will be emailed to you as soon as your parts leave our warehouse. Each line in the order information above shows that part's expected shipment date. As a reminder: Once orders have been placed they cannot be expedited. Our fulfillment process is designed to be as fast as possible, given the location of inventory being ordered.

Also please note that orders from multiple locations cannot be consolidated. Your order may ship from multiple locations at different times, according to the estimated shipment dates shown above, making further consolidation impossible. If your order contains multiple shipments, you will receive a tracking number and an invoice for each shipment.
